DESCRIPTION

Country Chic Paint's All-In-One Decor Paint is a chalk-style paint that's ideal for repainting pieces of furniture, home decor, cabinets, or craft projects. This clay paint is self-priming on most pieces, is eco-friendly, and will leave a beautiful chalky, matte finish that distresses beautifully, if desired. It gives excellent coverage with one or two coats and can be used for both interior and exterior projects.

PRODUCT SPECIFICATIONS

Coverage: 120+ sq ft/quart

VOCs: < 1 grams/liter

PH: 8.5 - 9.5

Clean Up: Clean rim of container after each use. Brushes can be cleaned with warm, soapy water.

Storage: Store in a cool, dry area. Keep from freezing. Keep away from heat sources. Keep containers closed when not in use. Store in a well ventilated area out of direct sunlight. Keep out of reach of children. Do not take internally.

Shelf Life: At least one year after opening in a well sealed container.

Disposal: Dispose of contents/container in accordance with paint collection facility's instructions.

First Aid: In case of eye contact, flush with plenty of water as a precaution. Wash skin with soap and water. If ingested, call physician or the Poison Control Centre.

Technical Data Sheet

APPLICATION

Always make sure that your surface is clean and dust-free before you start painting. Shake the jar and stir the paint before applying the first coat. Country Chic Paint's synthetic-bristle paint brushes are recommended for the smoothest finish.

If a second coat is required, wait for 1-2 hours, or until the first coat has dried completely before you apply.

You can follow up with your favorite distressing technique to give your piece a time-worn look, or leave it as-is for a more modern finish.

For table tops we recommend finishing with Tough Coat for optimal protection of your furniture. Waxing or glazing is not required, but can be used to create special effects.

Apply when the temperature is between 10°C (50°F) and 30°C (86°F) and the relative humidity is below 85%.

Keep in mind that certain surfaces, such as mahogany, may bleed and should be primed with a stain blocking primer (such as Shellac).

WARNING! If you scrape, sand or remove old lead paint from any surface you may release lead dust. LEAD IS TOXIC. EXPOSURE TO LEAD DUST CAN CAUSE SERIOUS ILLNESS, SUCH AS BRAIN DAMAGE, ESPECIALLY IN CHILDREN. PREGNANT WOMEN SHOULD ALSO AVOID EXPOSURE. Wear a NIOSH approved respirator to control lead exposure. Carefully clean up with a wet mop and HEPA vacuum. For additional information, Canadian customers contact the Product Safety division of Health Canada at 1-800-0-CANADA. US customers contact the U.S. EPA/Lead Information Hot Line at 1-800-424-LEAD.
